Make It "A Happy New Year"

All your friends and acquaintances will shortly be wishing you "A Happy New Year," but it will remain for you to make it happy.

It certainly will not be happy if you are constantly in debt, nor will it be genuinely happy unless you have the comforting assurance of a reserve fund in the bank to fall back upon in case of necessity.

Lack of money causes more worries than anything else in this life, and you can increase your happiness mightily by living well within your income and adding each week to your savings.

Savings accounts can be opened at this bank with One Dollar or over and earn 3% Compound Interest.
